Town Council had made a few minor changes to the RFP. The only change that there was much discussion on was the 50 ft. including the easement into the playground portion. Town Council suggested the RFP show an undesignated portion of the playground but the committee had previously voted on only a 50 ft. portion including the easement into the playground. Another vote was taken and the results were 5-1 in favor of keeping the 50 ft. Wayne Hayward was the only dissenting vote.

It was decided that we would discuss the RFP to lease the property at our next meeting.

Doug Brady is working on a preservation restriction for the property.

The Request for Proposal will be presented to the Selectboard on Monday, January 10, 2022.

The next meeting for the Re-Use Committee will be Thursday, January 27, 2022 at 6:00 PM.

Respectfully submitted,

Beverly Rasmussen
