

FAIRHAVEN HISTORICAL COMMISSION MINUTES THURSDAY, APRIL 16, 2015, 7PM FFD

Attending: Dave Despres, Gary Lavolette, Vicki Paquette, Chris Richard, Wayne Oliveira

The meeting was called to provide the Select board with a recommendation as to the issues related to the Taber Wall. Mr. Despres started the discussion with a reading of the two options:

Option A; the owners of the Bates House survey, at their expense, the property lines with the intent to realign the north/south lines to correct the issue of the Bates House sitting on Town property. The Town grants an easement to the Bates House owners for the septic system, and the Bates House owners grant permission for the public to cross their property in order to visit the Taber Wall.

Option B; the same terms, except that the Town sells to the Bates House owners the portion of the Town property containing the septic system instead of granting an easement.

A discussion ensued, with all agreeing that funding will be pursued in order to stabilize the Wall.

Option B was agreed on unanimously on a motion by Mr. Lavolette, second Mr. Richard.

Mr. Despres will inform the Select board as to the decision.
