

- IV. A landscape plan prepared and stamped by the registered landscape architect, to include the total square feet of all landscape, open space and recreation areas and depiction of materials to be used; and the quantity, size, methods, and species of plantings;

Enclosed please find general landscaping located on the Layout Plan Sheet C-201.

It is proposed to have a mix of small and large plantings that accent the green space without interrupting light into the building. Since this is a friendly 40B, once a dialogue with the Town of Fairhaven on the landscaping has started and the Applicant receives input, the Applicant will work with the civil engineer to revise and add more detail to a Landscaping Plan.
