- Recreation

Town Committee (if applicable): Fairhaven Historical Commission

Project Name: Town Center Streetlights

Project Location/Address: Town Hall

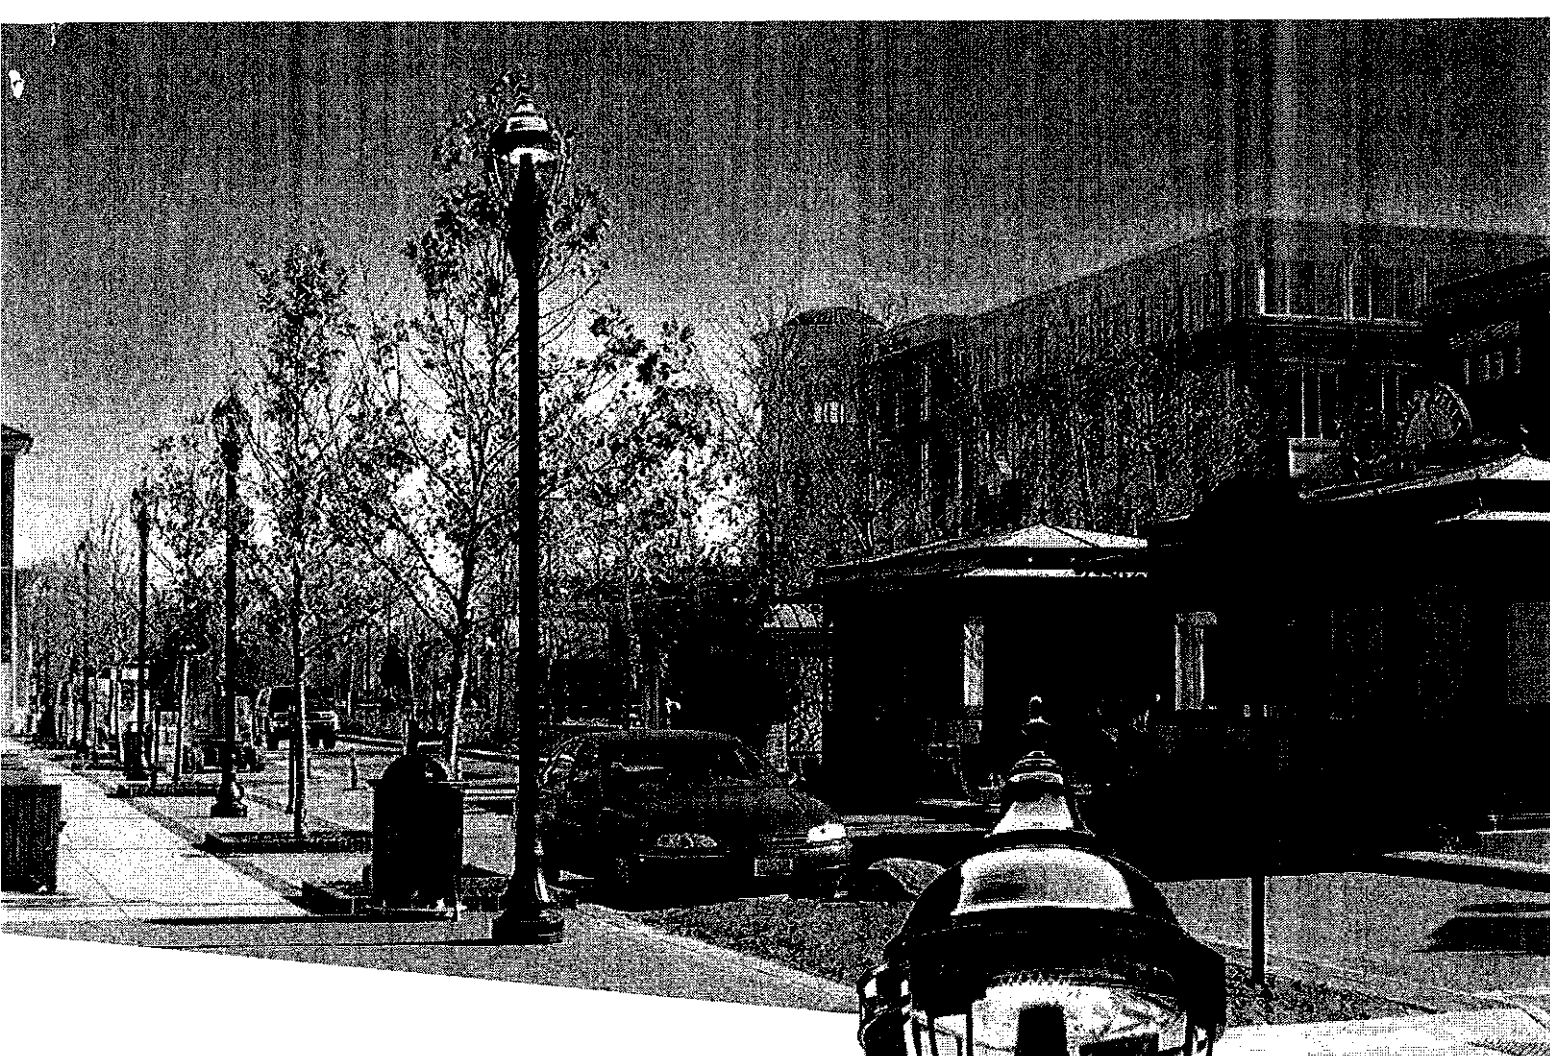

Amount Requested: \$ 22,000.00

Project Summary: In the space below, provide a brief summary of the project.

The project would add 4 decorative Street lamps to the sidewalk surrounding Town Hall. When the brick sidewalks were reconstructed several years back the plans called for underground conduit and utility boxes which were added during the project with the intention of one day adding ground mounted street lighting to enhance the historic appearance of our town center. This plan call for complete installation of 4 street lamps including concrete sono-tube bases, decorative base and pole and topped with an LED street lamp. This would be the first step in adding attractive street lighting within the town center.

Estimated Date for Commencement of Project: August 2021

Estimated Date for Completion of Project: October 2021

DECORATIVE POLE BASE

The PB100 Series Decorative Cast Aluminum Base will add elegance and a touch of class to any Roadway, Residential, or Commercial Lighting Project. The PB100 base is constructed of marine grade copper free aluminum and comes standard with a rich textured powder coat finish . The PB100 series is available with straight round steel or aluminum shafts in four inch, five inch, and six inch in either seven or eleven gauge. The PB100 is also available with a fluted aluminum shaft (standard seven gauge) also in four inch, five inch and six inch diameter . Optional custom multi-color paint finishes are also offered in Patina Verde and Weathered Brown. Optional mounting hardware includes flower basket hanging arms and banner arms for flags.
