Hello Everyone,

The Fairhaven School Committee had its first meeting to review the Athletic Field Turf Project this evening. In the plans it calls for the building of a bathroom facility. The proposed site of this structure is at the South-West corner of the football stadium which puts the building in front of the High School along Route 6. This is a totally unacceptable location for this structure. To put bathrooms at the front of the stadium, in front of one of our most beautiful and historic buildings in town is an outrage and the Historical Commission will go on record as being opposed to this plan. I spoke at the School Committee meeting and put them on notice of our opposition. I urge everyone who takes an interest in Fairhaven High to speak out against this proposal and further urge all boards and committees who will review these plans to take a hard look before issuing your approval. Please feel free to reach out to me if you have any further questions.

Sincerely,

Wayne Oliveira

Chairman

Fairhaven Historical Commission
