Purpose: (Please select all that apply)

- Open Space
- Community Housing
- Historic Preservation

- Recreation

Town Committee (if applicable): _____

Project Name: Livesey Skatepark concrete flat surfaces

Project Location/Address: Livesey Park- Glenhaven Ave- North Fairhaven

Amount Requested: \$ 200,000

Project Summary:

The current skatepark was renovated in 2015 by a grant from the CPC. At that time the grant only covered the cost of renovating the structures and building new structures. The grant did not cover the cost of replacing the flat surfaces. The park was built in the 90s and supported by North Fairhaven Improvement Association and during the last renovation there was a group of students from the middle school that helped raise some funds for the project. The current skatepark needs to finish the flat surfaces and repair and fill in all the cracks. All of the flat asphalt will need to be removed and replaced with concrete, these surfaces are very cracked and may cause injury to children and youth who are using the park regularly. The skatepark is heavily used by the community each day and use has increased since the 2015 renovations.

There are two bids that have been acquired. The cost for the project bids includes the removal of all the asphalt. It is unclear if the town BPW could help with any part of this project to lower the final cost. The BPW Superintendent is reviewing the project and supports it. The BPW is meeting on Nov.16, 2020 and this item is on the agenda to discuss.

Estimated Date for Commencement of Project: Summer 2021

Estimated Date for Completion of Project: Fall 2021

ESTIMATE

License #105580
 H.I.C # 166775
